## WORK EXPERIENCE

### Pramati Technologies(Nov 2017 to present):

#### 1) Innovation profiler manager:

Representing collected data in visual forms(graphs) , showing details of the product with different filtering and searching functionalities like e-Commerce app.

**Tech stack** : angular 7, scss, HTML, polymer, redux, rxjs

### Infosys(May 2015 to Nov 2017) :

#### 1) DMMG (e-Commerce app):

Working on frontend which includes filtering the data, adding products to cart, customizing products and working on an admin module.

#### 2) Workflow Applications:

An app which helps to process workflow. Here I worked on frontend as well as on backend(WorkflowGen, DotNet)

#### 3) Design Portal - MOS (e-Commerce app):

Here I worked on frontend. This app consumed restful APIs to display items, add items to cart and display the details of the cart.

#### 4) AssetSyncer (Cross platform desktop app):

This app is developed in elctron/node.js, which syncs data from server to local machine and automatically syncs data after a certain interval.

### BISAG (Dec 2014 - Mar 2015):

**1)Proximity Analysis:** This app is used for publishing maps using shape files, as well as buffer analysis with union and intersection which helps to find schools, hospitals in the buffer region.
